

MIT School of Distance Education

Recognised by Distance Education Bureau of
University Grants Commission (UGC), Government of India

MAEER's MIT

Maharashtra Academy of Engineering & Educational Research (MAEER), Pune, established in 1983, is a well-known educational trust with 65 institutions delivering KG to PG education. Founded with a simple proposition of meeting the need of a center for scientific and educational research, MAEER's Maharashtra Institutes of Technology (MIT) stands proud with campuses sprawling acres of hallowed grounds at various locations.

Conducting Pune University approved and autonomous academic programmes in Engineering, Management, Pharmacy, Medicine and Polytechnic, this multi-campus and multi-disciplinary institute weaves a mosaic of integrity, commitment and dedication binding it with strands of strong Indian values.

With alumni that are an assortment of professionals working in blue-chip companies; eminent permanent & visiting faculty that are honing students; world-class infrastructure that meets international standards; academic partnership with major international companies that help in developing a global outlook and stunning campus placements that vault careers, MIT continues to be a gateway to a successful future for students across the continents.

Vision

"MITSDE embraces a vision to enhance the scientific and cultural vision of the society while developing and sustaining the institute's identity as one of the best distance learning institutions of the highest international quality."

Mission

"As India's leading centre of academic excellence, MITSDE is committed to impart productivity, entrepreneurship & creativity among the students through an outstanding educational environment. The institute also aims to develop learners equipped with high personal and professional skills for the corporate world by supporting study across a wide range of academic disciplines and serving the major professions."

Education Methodology

- All the courses are designed to prepare students for professional leadership in field of management, science and technology. In terms of quality, content, durations, etc, all the programmes are vastly appreciated and highly ranked.
- Open platform: You can choose from the right program for you from the wide range of courses offered by MITSDE.
- Virtual Campus powered by LMS: We provide you facilities such as online study material. Virtual Campus enables you to complete your assignments online as per your ease.
- Textbooks: You will be given textbooks of complete study material of the program.
- Online Exams: Now you don't have to worry about exam dates and deadline for your study! Exam dates are flexible and there are online exam centres all over India.

As soon as your documents are received; they are completely verified and sent for further enrolment process.

5

Dispatch & Delivery

Once your Payment is confirmed, your id is generated and your student kit comprising the I-card, study material and admission letter is dispatched to you within 15 working days from the date of admission via courier.

Testimonials

Doing PGDBA Operations at MITSDE is a great experience. Guidance and assistance to the classmates from different background equipped them with required skills. Students caring begin from the day they enrolled. Course content, online exercise and assignments are extremely knowledgeable and definitely broaden my skill set. Staff from all departments is very approachable they guided me in dealing with queries and issues and made my course easier.

Kapil Gupta, Project Consultant, PGDBA - Operations

I must compliment you on the excellent support for my PGDBA course attended at MITSDE! I learnt so much more than I would ever have expected, and so thoroughly! Thank you for having such an excellent and unique course administrator--it made the whole experience worth so much more than the cost. The syllabus and the technicalities of the programme is useful in both personal and professional aspects. I would say this course helped me a lot in career progression, and I experience that in my work-life. The way course has been designed, structured was really good.

AMOL S AHIRRAO, Project Manager, PGDBA - Operations

I came to know about MIT-School of Distance Education. After going through the web site and all the details about the Course, I just left an inquiry message about the Course, Certificate, Payment terms, etc. The ever ready co-operation and support I receive from all the staffs is a great experience at my Part. It's a great honour and privilege for me to write the testimonial for the institute. Two years ago, one day while searching for Energy Management course in the Internet.

Sachindananda Awar, Training Coordinator, PGD in Energy Management

Studying at MITSDE brought an added value to my professional life. The courses are very interesting and the online portal is well developed. For me MITSDE is a place with full of opportunities to grow professionally and personally. You immediately have somebody you can reach when you need to; the management provides excellent support to students.

.

Arnab Chakraborty, PGD in Human Resource Management
